(Response must be **TYPED** or **SELECTED** from drop-down menu; all fillable fields have "hover-capable" description)

Document Purpose: This checklist is used by the Education and Training Section (E&TS) in the approval process for SkillBridge participation. Airmen (Active, Guard, and Reserve) will submit SkillBridge applications through the Air Force Virtual Education Center (AFVEC) after providing this document to, and receiving clearance from, E&TS staff.

This checklist will provide the E&TS with details of the SkillBridge training to ensure it meets the criteria of Department of Defense Instruction (DoDI) 1322.29, *Job Training, Employment Skills Training, Apprenticeships, and Internships (JTEST-AI) for Eligible Service Members* and AFI 36-2649, *Voluntary Education Program*. It ensures Airmen acknowledge their eligibility requirements to participate in SkillBridge. In addition, Airmen acknowledge that they must maintain contact with their losing Command and adhere to Uniformed Code of Military Justice requirements while participating in the SkillBridge program.

It is the Airman's responsibility to coordinate the completion of this document with his/her SkillBridge provider or sister-service program manager, and submit it to the local Education Center prior to submitting his/her AFVEC SkillBridge application. Air National Guard and Air Force Reserves, depending on their status, may require additional coordination with their ANG/AFRES leadership.

10. Criteria (Specific to Internships only):

- a. The proposed internship must be in line with the scope and intent of the respective Service internship programs, including those offered by the Federal Government, States, local governments, the civilian sector, and non-governmental organizations.
- b. Internships under the SkillBridge program should be reviewed to determine the extent to which the following seven factors are met; factors are applied on a case-by-case basis...no single factor is determinative, and an internship may still be valid even though one or more of the factors is not met. Internships are reviewed to determine the extent to which:

- 1) the intern and the employer clearly understand that there is no expectation of compensation. Any promise of compensation, express or implied, suggests that the intern is an employee – and vice versa (NOTE: Applies to all SkillBridge programs)
- 2) the internship provides training that would be similar to that which would be given in an educational environment, including the clinical and other hands-on training provided by educational institutions
- 3) the internship is tied to the intern's formal education program by integrated course work or the receipt of academic credit
- 4) the intern should accommodate the intern's academic commitments by corresponding to the academic calendar
- 5) the internship's duration is limited to the period in which the internship provides the intern with beneficial learning
- 6) the intern's work complements, rather than displaces, the work of paid employees while providing significant educational benefits to the intern
